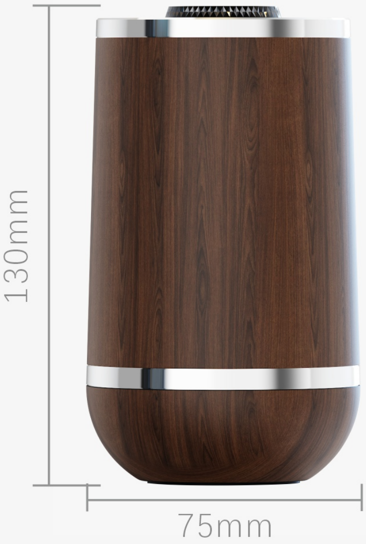
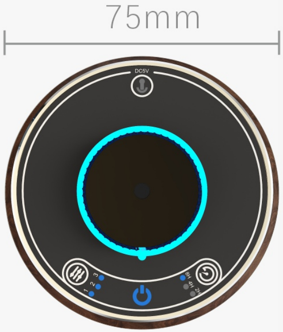
Parameters





Brand: HYAROMA

Model: H-A200

Voltage/power: DC5V1A/1.2W

Noise: ＜30db

Capacity: 10ml

Atomization volume: 0.1g

Atomization: Two-fluid atomization

Installation method: lay

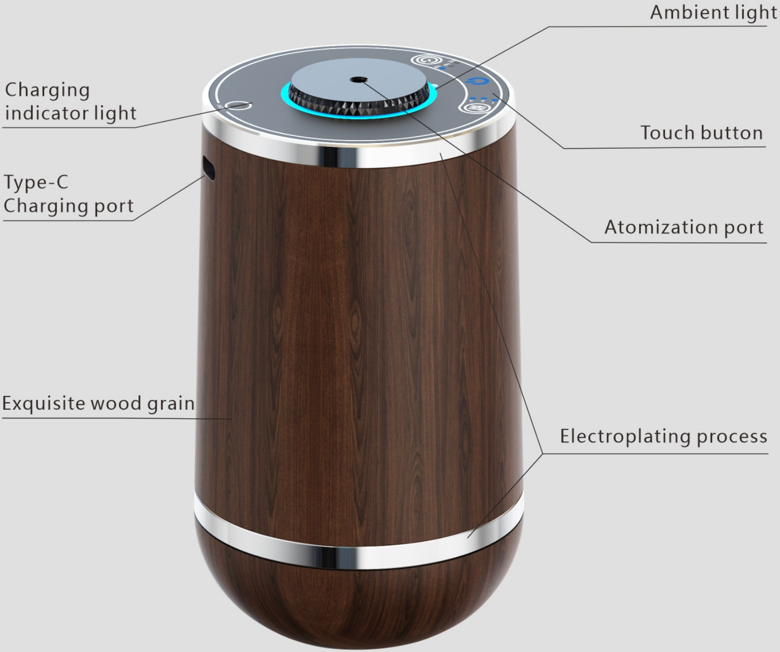
Material: Plastic

Weight: 0.35kg

Size: W75 x D75 x H130mm

Scope: 5–30m²

Product Instruction Manual



Introduction to the Control Panel

1、 Connect the power supply (must use a charger with a DC 5V output, do not use a mobile fast charger for power supply).

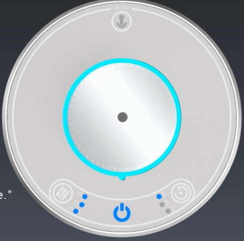
2、 Power on: Press and hold the power button for 2 seconds to turn on/off.

3、 Modes: Single-click the mode button to cycle through the modes (1st gear - 2nd gear - 3rd gear). The first gear lights up 1 light, the second gear lights up 2 lights, and the third gear lights up 3 lights.

4、 Timer: Press the timer button to cycle through the timer settings (2H - 4H - 8H). The corresponding indicator light will turn on for 2H, 4H, or 8H.

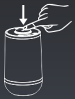
5、 Double-click the power button quickly to cycle between "Home Mode" and "Car Mode."

6、 Home Mode - the button light stays blue; Car Mode - the button light stays green.
(For detailed operations, refer to the product manual.)



Instructions for Essential Oil Replacement

①

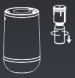


Press the atomizing head down with your fingers

②

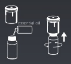
The atomizing head will pop up automatically. Take out the atomizing head.

③



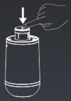
Hold the atomizing head and the bottle respectively with your hands, then unscrew the bottle counterclockwise.

④



After adding the essential oil, tighten the bottle clockwise

⑤



Ensure that the positioning posts of the atomizing head are aligned with the positioning holes of the machine, and press the atomizing head into place.

⑥

The steps for replacing the essential oil are completed.

Precautions

MAINTENANCE

When the following situations occur, the machine needs to be cleaned

1. Prepare to switch to another essential oil for use.
2. The atomization effect has become less and less obvious over time.

Cleaning steps

1. Pull out the atomizer head and unscrew the bottle
2. Put an appropriate amount of alcohol in an essential oil bottle and place it on the device for atomization for 5 to 10 minutes, then let it absorb the odors.
3. After it has dried, the cleaning process is completed.
